take the rush out of your day

take the worry out of your payroll

Operating payroll systems for your employees can be a time consuming and complicated procedure.

Tax rates, tax codes and tax bands seem to be constantly changing, and you can never be sure if the ones you are using are correct.

Once you have calculated the payroll you then have to spend valuable time writing out the payslips for your employees.

Why not take the worry out of your payroll, relax, and let us take care of it all for you.

tax year end service

Our payroll solution also includes the completion of the year end forms P14, P35 Employers Annual Return and P60 for no additional fee.

The forms P60 are prepared for you to give to each of your employees.

They are a record for your employees of their earnings and tax and national insurance deductions for the tax year.

We will also prepare the P14 copies for submission to H M Revenue & Customs together with the year end Employers Annual Return form P35.

The form P35 summarises the tax and national insurance deductions taken from your employees and the payments made to H M Revenue & Customs.

We are registered as an agent for online filing with H M Revenue & Customs and we will submit your year end forms by secure Internet connection. This ensures that each return is received and processed.

payroll form design service

Our payroll solution will also include the design of a payroll summary form for you to use each pay period.

This form will include all of your employees and all of your pay types for each pay period.

All you have to do is complete the gross hours or pay details for that pay period and send it to us for processing.

We can accept your payroll information by phone, fax or e-mail.

We will also design and send to you a new employee information form.

This covers all of the employee information we both require whenever you take on a new employee.

Completing your payroll couldn't be simpler!
